51521	Structural	Unknown	No determination	Access road/transmission line – South Glade Segment
51523	Non-structural	Pueblo II-III (A.D. 900 to 1300)	No determination	Access road – Pinon Mesa Segment
51529	Non-structural	Unknown	Not entered	Access road/transmission line – Pinon Mesa Segment
52262	Non-structural	Pueblo I (A.D. 700 to 900)	No determination	Access road/transmission line – Pinon Mesa Segment
53646	Structural	Pueblo I-III (A.D. 700 to 1300)	No determination	Access road/transmission line – Shiprock Substation Shiprock Substation Segment
53647	Structural	NM Statehood-World War II to Recent (AD. 1912 to present)	Not entered	Access road – State Line Segment
53650	Non-structural	Pueblo II (A.D. 900 to 1100)	Not entered	Access road/transmission line – South Glade Segment
53651	Non-structural	Pueblo II-III (A.D. 900 to 1300)	Not entered	Access road/transmission line – South Glade Segment
53652	Non-structural	Pueblo II (A.D. 900 to 1100)	Not entered	Access road transmission line – South Glade Segment
53653	Non-structural	Pueblo II-III (A.D. 900 to 1300)	Not entered	Access road/transmission line – South Glade Segment
53655	Non-structural	Basketmaker III to Pueblo I (A.D. 500 to 900)	Not entered	Access road/transmission line – Pinon Mesa Segment
53656	Non-structural	Pueblo II-III (A.D. 900 to 1300)	Not entered	Access road/transmission line – Pinon Mesa Segment
53657	Non-structural	Unknown	Not entered	Access road/transmission line – Pinon Mesa Segment
53658	Non-structural	Unspecified Anasazi (A.D. 1 to 1600)	Not entered	Access road/transmission line – Pinon Mesa Segment
54279	Non-structural	Pueblo I (A.D. 700 to 900)	Not entered	Access road/transmission line – North Glade Segment
65027	Structural	Pueblo II (A.D. 900 to 1100)	Not entered	Access road/transmission line – Pinon Mesa Segment
69355	Structural	Pueblo II (A.D. 900 to 1100)	Not entered	Access road/transmission line – Shiprock Substation Shiprock Substation Segment

**Exhibit F-2****Previously Recorded Cultural Resources within Study Area**

<b>LA Number</b>	<b>Site Type</b>	<b>Cultural/Temporal Affiliation</b>	<b>NRHP Eligibility</b>	<b>Location</b>
69358	Non-structural	Pueblo II (A.D. 1100 to 1300)	Not entered	Access road/transmission line – Shiprock Substation Shiprock Substation Segment
78541	Structural	Unspecified Anasazi (A.D. 1 to 1600)	No determination	Access road/transmission line – State Line Segment
78841	Structural	Pueblo I (A.D. 825 to 900); Navajo Pre-Pueblo Revolt (A.D. 1500 to 1692)	No determination	Access road/transmission line – State Line Segment
80323	Structural	Basketmaker III to Pueblo I (A.D. 600 to 800)	No determination	Transmission line – State Line Segment
80324	Non-structural	Navajo Post-Pueblo Revolt (A.D. 1693 to 1753); NM Statehood to WWII (A.D. 1912 to 1945)	Not entered	Transmission line – State Line Segment
82067	Structural	Pueblo I (A.D. 700 to 900); Navajo Pre-Pueblo Revolt (A.D. 1403 to 1446)	Undetermined	Access road/transmission line – State Line Segment
86842	Structural	U.S. Territorial (A.D. 1846 to 1912)	No determination	Access road/transmission line – North Glade Segment
98453	Structural	Pueblo I (A.D. 800 to 900)	Eligible	Access Road – State Line Segment
98454	Structural	Basketmaker III to Pueblo III (A.D. 500 to 1300); Navajo Post-Pueblo Revolt (A.D. 1692 to 1753)	No determination	Access road /transmission line – North Glade Segment
98455	Structural	Pueblo I (A.D. 700 to 900)	Eligible	Access road/transmission line – North Glade Segment
98458	Structural	Pueblo I (A.D. 700 to 900)	Eligible	Access road/transmission line – North Glade Segment
98471	Structural	Pueblo I (A.D. 700 to 900)	Eligible	Access road/transmission line – North Glade Segment
98472	Structural	Pueblo I (A.D. 700 to 900)	Eligible	Access road/transmission line – North Glade Segment
110669	Non-structural	Unspecified Prehistoric (9500 B.C. to A.D. 1550)	No determination	Access road – State Line Segment

**Exhibit F-2****Previously Recorded Cultural Resources within Study Area**

<b>LA Number</b>	<b>Site Type</b>	<b>Cultural/Temporal Affiliation</b>	<b>NRHP Eligibility</b>	<b>Location</b>
121992	Structural	Pueblo I (A.D. 700 to 900)	Eligible	Access road – North Glade Segment
121994	Non-structural	Pueblo II-III (A.D. 900 to 1300)	No determination	Access road – North Glade Segment
126595	Structural	Pueblo II-III (A.D. 900 to 1300)	Eligible	Access road – Pinon Mesa Segment
129101	Structural	Pueblo II-III (A.D. 900 to 1300)	No determination	Access road/transmission line – South Glade Segment
129371	Structural	Pueblo II (A.D. 900 to 1100)	Eligible	Transmission line – State Line Segment
136338	Structural	Pueblo II-III (A.D. 900 to 1300)	Eligible	Access road – South Glade Segment
143783	Structural	Unknown	No determination	Access road/transmission line – State Line Segment
154315	Structural	Pueblo II (A.D. 900 to 1100)	Eligible	Access road – Pinon Mesa Segment
154316	Structural	Pueblo I-II (A.D. 700 to 1100)	Eligible	Access road – Pinon Mesa Segment
166706	Structural	No information available	No information available	Access road – North Glade Segment

**Exhibit F-3****Previously Recorded Sites within 500 m of the Study Area (New Mexico)**

<b>LA No.</b>	<b>Site Type</b>	<b>Cultural/Temporal Affiliation</b>	<b>NRHP Eligibility</b>	<b>Location</b>
1897	Structural	Basketmaker III (A.D. 500 to 700)	Eligible	Pinon Mesa Segment – 310 m northeast of study area
1900	Structural	Unspecified Anasazi (A.D. 1 to 1600)	No determination	Pinon Mesa Segment – 230 m north of study area
1903	Structural	Pueblo III (A.D. 1100 to 1300)	No determination	Pinon Mesa Segment – 310 m northeast of study area
1904	Structural	Pueblo III (A.D. 1100 to 1300)	No determination	Pinon Mesa Segment – 450 m east of study area
1906	Structural	Pueblo III (A.D. 1100 to 1300)	No determination	Pinon Mesa Segment – 20 m south of study area
1911	Structural	Pueblo III (A.D. 1100 to 1300)	No determination	Pinon Mesa Segment – 440 m north of study area
1914	Structural	Pueblo III (A.D. 1100 to 1300)	No determination	Pinon Mesa Segment – 200 m southeast of study area

## Summary of Documented Archaeological Sites (New Mexico)

LA No.	Location	Segment	Land Status	Description	Temporal Affiliation	Preliminary Eligibility
LA 1906	Corridor	Piñon Mesa	Private	LA 1906 is a large roomblock site located at the eastern edge of Piñon Mesa above the La Plata floodplain. The site consists of five roomblocks, a kiva depression, and a dense sheet midden. The largest roomblock contains approximately 15 to 20 rooms. The site has been impacted by looting, although it retains potential for intact buried deposits.	Pueblo II-III (A.D. 900 to 1300)	Eligible
LA 16755	Access Road	San Juan Power Plant	Private	LA 16755 is an Ancestral Pueblo roomblock site located on the west bank of Shumway Arroyo. The site contains a looted masonry roomblock of four to six rooms. Additional associated features include two middens with high artifact density. The total artifact assemblage is estimated to number in the thousands.	Pueblo II-III (A.D. 900 to 1300)	Eligible
LA 22058	Access Road	Shiprock Substation	BLM/ Private	LA 22058 is a large Ancestral Pueblo sherd and lithic scatter. A sandstone slab-lined cistern is the only definable feature. Three artifact concentrations (ACs) were identified, and the total assemblage numbers in the hundreds.	Pueblo II-III (A.D. 900 to 1300)	Eligible
LA 22061	Access Road	Shiprock Substation	Private	LA 22061 is a small rockshelter site situated on the bench of a prominent mesa. It contains a single room with masonry walls in the overhang of a large boulder. No artifacts were identified, although most of the site may be buried.	Unspecified Native American (9500 B.C. to A.D. 1880)	Eligible
LA 22070	Corridor	Shiprock Substation	Private	LA 22070 is an Ancestral Pueblo rockshelter site located below the rim of a prominent mesa. The site contains the remains of at least three masonry rooms and two associated features. Only two associated artifacts were identified.	Pueblo II-III (A.D. 900 to 1300)	Eligible

## Exhibit F-4

## Summary of Documented Archaeological Sites (New Mexico)

LA No.	Location	Segment	Land Status	Description	Temporal Affiliation	Preliminary Eligibility
LA 22077	Access Road	Shiprock Substation	BLM	LA 22077 is an historic 20th century site located on a mesa top. The site contains a corral, hearth, and an indeterminate rock alignment. Artifacts include historic glass and metal.	NM Statehood to Recent Historic (A.D. 1912 to 1960)	Not Eligible
LA 22082	Corridor	Shiprock Substation	Private	LA. 22082 is a multi-component site with Navajo/Ute and early 20th century manifestations. The site is a circular rock foundation (either a hogan or wickiup) and an unassociated rock wall/check dam that likely dates to the NM Statehood–WWII period.	Unspecified Historic (A.D. 1500 to 1960)	Eligible
LA 22083	Access Road	Shiprock Substation	BLM	LA 22083 is a multi-component site containing Ancestral Pueblo and Navajo manifestations. The prehistoric component consists of a large U-shaped masonry roomblock with an associated kiva depression and two additional rubble concentrations. Less than 100 artifacts are present. The Navajo component consists of four circular masonry hogans.	Pueblo II-III (A.D. 900 to 1300); Navajo pre-Reservation to Early Reservation (A.D. 1753 to 1880)	Eligible
LA 22084	Access Road	Shiprock Substation	Private	LA 22084 is a multicomponent site located east of LA 22061 along the same landform. It consists of a small Anasazi sherd scatter (10 artifacts), and later rock corral feature likely associated with Navajo or Euroamerican use of the area.	Pueblo II-III (A.D. 900 to 1300); Unspecified Navajo/Historic	Not Eligible
LA 33355	Corridor	Pinon Mesa	Private	LA 33355 is a large Ancestral Pueblo site located within Foxtail Flats. The site contains a single roomblock, with an associated midden and two rock features. The total artifact assemblage size is estimated to number in the thousands.	Pueblo II-III (A.D. 900 to 1300)	Eligible
LA 33356	Corridor	Pinon Mesa	SLO	LA 33356 is an Ancestral Pueblo site located in Foxtail Flats. The site contains a masonry structure that likely represents the remains of a one-to-two-room field house. A low-density scatter of prehistoric ceramics and lithic artifacts is associated with this feature.	Pueblo II-III (A.D. 900 to 1300)	Eligible

**Exhibit F-4****Summary of Documented Archaeological Sites (New Mexico)**

<b>LA No.</b>	<b>Location</b>	<b>Segment</b>	<b>Land Status</b>	<b>Description</b>	<b>Temporal Affiliation</b>	<b>Preliminary Eligibility</b>
LA 33357	Corridor	Pinon Mesa	SLO	LA 33357 is a large multi-component site containing Archaic and Ancestral Pueblo manifestations. The Archaic component contains over 100 lithic artifacts. The Ancestral Pueblo component consists of two loci: one contains two masonry roomblocks with associated kiva depressions and a deflated midden, while the second locus contains a two-to-three room masonry structure with associated ceramic and lithic artifacts. The total assemblage size is estimated to be in the thousands.	Unspecified Archaic (5500 B.C. to A.D. 500); Pueblo II-III (A.D. 900 to 1300)	Eligible
LA 33358	Corridor	Pinon Mesa	SLO	LA 33358 is an Ancestral Pueblo roomblock site located in Foxtail Flats. The site contains a 10-12-room masonry roomblock, two associated kivas, and a midden. The artifact assemblage numbers in the hundreds.	Pueblo II-III (A.D. 900 to 1300)	Eligible
LA 33359	Corridor	Pinon Mesa	Private	LA 33359 is an Ancestral Pueblo roomblock site located west of Foxtail Flats. The site contains a masonry roomblock with approximately four rooms and an associated artifact scatter. A second locus contains two possible hearths and a dense midden. The total assemblage size is estimated in the hundreds.	Pueblo II-III (A.D. 900 to 1300)	Eligible
LA 33361	Corridor	Shiprock Substation Shiprock Substation	BLM	LA 33361 is a very large Ancestral Pueblo site located in a box canyon east of Shumway Arroyo. The site contains at least one roomblock with a large associated kiva depressions, as well as numerous mud-mortared masonry rockshelter rooms and storage facilities. Rock art panels are also present. A lithic procurement activity area is located on the adjacent mesa top. The total assemblage size is estimated in thousands.	Pueblo II-III (A.D. 900 to 1300)	Eligible

## Exhibit F-4

## Summary of Documented Archaeological Sites (New Mexico)

LA No.	Location	Segment	Land Status	Description	Temporal Affiliation	Preliminary Eligibility
LA 33362	Corridor	Shiprock Substation	BLM	LA 33362 is a large Ancestral Pueblo roomblock site located west of Beechatuda Draw. The site contains an L-shaped masonry roomblock with several associated features, including two kiva depressions, a box hearth, and a large dense midden. The total assemblage is estimated to number in the thousands.	Pueblo II-III (A.D. 900 to 1300)	Eligible
LA 37600	Access Road	Pinon Mesa	Private	LA 37600 is a large multi-component site located along the west side of the La Plata Highway. The site contains Ancestral Pueblo and 20th Century ranching manifestations. The prehistoric component includes three masonry roomblocks and a dense artifact scatter. The ranching component includes a livestock feeding pen and a corral with a loading chute.	Pueblo II-III (A.D. 900 to 1300)	Eligible
LA 37601	Corridor	Pinon Mesa	Private	LA 37601 is a large Ancestral Pueblo site located along the east side of the La Plata Highway. The site contains a large multi-storied pueblo containing 30 to 60 rooms and 3 kivas. A large midden extends south and east from the pueblo. Six other features are also located on the site, including a roomblock of 12 to 24 rooms, and four other masonry structures. The total assemblage size is estimated in the thousands.	Pueblo II-III (A.D. 900 to 1300)	Eligible
LA 44849	Shiprock Substation	Shiprock Substation	BLM	LA 44849 contains five check dams and a low-density scatter of historic 20th Century artifacts. The check-dams likely served an agricultural function. It is unclear if the historic artifacts are directly associated with these features.	Unspecified Historic (A.D. 1500 to 1960)	Not Eligible

**Exhibit F-4****Summary of Documented Archaeological Sites (New Mexico)**

<b>LA No.</b>	<b>Location</b>	<b>Segment</b>	<b>Land Status</b>	<b>Description</b>	<b>Temporal Affiliation</b>	<b>Preliminary Eligibility</b>
LA 50631	Corridor	State Line	BLM	LA 50631 is a rockshelter site located near the Cox Canyon Arch. It is situated within a large overhang that contains several subfeatures, including a hearth. It is a multicomponent site with Pueblo, Navajo, and historic 20th century manifestations. A narrow sheet midden extends downslope and to the west of the rockshelter.	Unspecified Pueblo; Unspecified Navajo; Unspecified Historic	Eligible
LA 51504	Corridor	North Glade	Private	This is a very large multi-component site consisting of Ancestral Pueblo, historic Navajo, and 20th century Euro-American manifestations. The prehistoric habitation includes multiple residential features, and the artifact assemblage is estimated to contain over 5,000 items. An historic dump containing around 100 items is also located on the site.	Pueblo I (A.D. 700 to 900); Early Navajo (A.D. 1400 to 1780); NM Statehood-recent (A.D. 1912 to 1960)	Eligible
LA 51506	Corridor	North Glade	BLM/ Private	LA 51506 is a large Ancestral Pueblo habitation located on an alluvial terrace on the SE side of the Farmington Glade. Numerous residential structures are present, and the site is estimated to contain over 3000 artifacts.	Pueblo I (A.D. 700 to 900)	Eligible
LA 51508	Corridor	North Glade	BLM	This is a small, dense prehistoric lithic artifact scatter located on an alluvial fan on SE side of the Farmington Glade. The site contains approximately 30 flaked-stone artifacts.	Unspecified prehistoric (5500 B.C. to A.D. 1550)	Undetermined
LA 51512	Corridor	South Glade	BLM/SLO	LA 51512 is a medium-sized, multi-component site consisting of Ancestral Pueblo and historic Navajo manifestations. The site includes a dispersed artifact scatter (29 total items) and 2 thermal features located on a ridge overlooking Farmington Glade.	Pueblo I (A.D. 700 to 900); Early Navajo to post-Pueblo Revolt (A.D. 1620 to 1780)	Eligible

## Exhibit F-4

## Summary of Documented Archaeological Sites (New Mexico)

LA No.	Location	Segment	Land Status	Description	Temporal Affiliation	Preliminary Eligibility
LA 51513	Corridor	South Glade	BLM	LA 51513 is a small prehistoric lithic procurement and reduction site consisting of 14 lithic artifacts. The site is situated in the upper Pickering Arroyo watershed. The site area is rocky and does not have potential for subsurface cultural deposits	Unspecified prehistoric (5500 B.C. to A.D. 1550)	Not Eligible
LA 51515	Corridor	South Glade	BLM	LA 51515 includes a medium-sized prehistoric artifact scatter and a historic brush corral. The artifact assemblage consists of 41 lithic, 4 ceramic artifacts, and 4 historic artifacts. Previous recorders noted the possible presence of hearths.	Pueblo II-III (A.D. 900 to 1300); N.M. Statehood to WWII (A.D. 1912–1945)	Eligible
LA 51516	Corridor	South Glade	BLM/SLO	LA 51516 is a medium-sized prehistoric artifact scatter situated on an alluvial fan in the upper Pickering Arroyo watershed. The artifact assemblage includes 23 lithic (including one projectile point) and 11 ceramic artifacts, representing Archaic and Ancestral Puebloan components.	Middle to Late Archaic (3500 to 200 B.C.); Pueblo II (A.D. 900 to 1100)	Undetermined
LA 51519	Corridor	South Glade	BLM	LA 51519 is a large dispersed artifact scatter of prehistoric to early historic origin located on a ridge overlooking Pickering Arroyo. The artifact assemblage consists of over 100 flaked lithic artifacts, 6 ground stone implements, and 13 ceramics.	Pueblo II-III (A.D. 900 to 1300); Early Navajo to post-Pueblo Revolt (A.D. 1620 to 1780)	Eligible
LA 51520	Corridor	South Glade	BLM	LA 51520 is an early Navajo artifact scatter with containing a standing hogan and 25 lithic artifacts. It is located adjacent to Pickering Arroyo.	Early Navajo to post-Pueblo Revolt (A.D. 1692 to 1780)	Eligible
LA 51521	Access Road	South Glade	BLM	LA 51521 is a medium-sized low-density prehistoric artifact scatter. The assemblage includes 40 flaked-stone artifacts. No ceramics are present.	Unspecified prehistoric (5500 B.C. to A.D. 1550)	Undetermined

**Exhibit F-4****Summary of Documented Archaeological Sites (New Mexico)**

LA No.	Location	Segment	Land Status	Description	Temporal Affiliation	Preliminary Eligibility
LA 51523	Access Road	Pinon Mesa	Private	LA 51523 is a large lithic procurement and reduction site containing three artifact concentrations. The total assemblage is estimated to include 1000 artifacts. A small scatter of five historic cans is also located on this site.	Unspecified Prehistoric (9500 B.C. to A.D. 1550); NM Statehood to WWII (A.D. 1912 to 1945)	Eligible
LA 51529	Corridor	Pinon Mesa	SLO	LA 51529 is a large lithic procurement and reduction site located in Foxtail Flats. The site contains three artifact concentrations/activity areas focused on reduction of petrified wood. The total lithic assemblage is estimated to include 500 to 1000 artifacts. A grayware pot drop is also located on the site.	Unspecified Prehistoric (9500 B.C. to A.D. 1550)	Eligible
LA 53651	Corridor	South Glade	BLM	LA 53651 is a medium-sized prehistoric artifact scatter consisting of 23 lithic and 10 ceramic artifacts. The site is situated on lower slopes and an alluvial fan in the upper Pickering Arroyo watershed.	Pueblo II-III (A.D. 900 to 1300)	Undetermined
LA 53653	Corridor	South Glade	BLM	LA 53653 is a small and dispersed historic and prehistoric artifact scatter overlooking Pickering Arroyo. The artifact assemblage includes four lithic and two ceramic artifacts and a scatter of 28 historic items.	Pueblo II (A.D. 900 to 1100); Recent historic (A.D. 1945 to 1960)	Not Eligible
LA 53655	Access Road	Pinon Mesa	BLM	LA 53655 is a small lithic procurement and reduction site containing less than 20 flaked stone artifacts. Previously recorded bifaces and sherds are no longer present.	Unspecified Prehistoric (9500 B.C. to A.D. 1550)	Not Eligible
LA 53657	Corridor	Pinon Mesa	BLM	LA 53657 is a low-density Ancestral Pueblo site containing a thermal feature and a sherd and lithic scatter (less than 50 items).	Pueblo II-III (A.D. 900 to 1300)	Eligible

## Exhibit F-4

## Summary of Documented Archaeological Sites (New Mexico)

LA No.	Location	Segment	Land Status	Description	Temporal Affiliation	Preliminary Eligibility
LA 53658	Access Road	Pinon Mesa	BLM	LA 53658 is a small prehistoric artifact scatter containing less than 40 items. Flaked stone dominates the assemblage, and the two ceramics present may be incidental.	Unspecified Prehistoric (9500 B.C. to A.D. 1550)	Undetermined
LA 54279	Corridor	North Glade	BLM	LA 54279 is an Ancestral Pueblo habitation site. It contains a single residential structure and more than 200 associated artifacts.	Pueblo I (A.D. 700 to 900)	Eligible
LA 65027	Corridor	Pinon Mesa	Private	LA 65027 is an Ancestral Pueblo roomblock site located along the west side of the La Plata Highway. The site contains four cobble mounds/alignments that likely represent residential structures. The total artifact assemblage is estimated in the thousands.	Pueblo II-III (A.D. 900 to 1300)	Eligible
LA 69355	Corridor	Shiprock Substation Shiprock Substation	BLM	LA 69355 is a moderate-to-high-density Ancestral Pueblo artifact scatter containing two ACs and a possible hearth. Over 1,000 artifacts are present.	Pueblo II (A.D. 900 to 1100)	Eligible
LA 78841	Corridor	State Line	BLM	LA 78841 is a large multi-component site containing Ancestral Pueblo and Historic Navajo manifestations. The prehistoric component contains a small masonry roomblock with an associated midden with several hundred artifacts. The historic Navajo component consists of a small locus containing 11 Dinétah Gray sherds.	Pueblo I-II (A.D. 700 to 1100); Navajo pre-Pueblo Revolt to post-Pueblo Revolt (A.D. 1500 to 1753)	Eligible
LA 80323	Corridor	State Line	BLM	LA 80323 is an Ancestral Pueblo sherd and lithic scatter located in Cox Canyon. The site contains a dense midden area and several depressions that could represent possible pithouses. The midden contains approximately 500 artifacts, including numerous tools	Pueblo I (A.D. 700 to 900)	Eligible

**Exhibit F-4****Summary of Documented Archaeological Sites (New Mexico)**

<b>LA No.</b>	<b>Location</b>	<b>Segment</b>	<b>Land Status</b>	<b>Description</b>	<b>Temporal Affiliation</b>	<b>Preliminary Eligibility</b>
LA 80324	Corridor	State Line	BLM/ Private	LA 80324 is a multi-component site located in Cox Canyon. The site contains Ancestral Pueblo, Navajo, and early 20th century historic manifestations. The Ancestral Pueblo component contains 10 grayware sherds. The Navajo component contains Dineta Gray and Gobernador Polychrome. The early 20th Century component includes a graffiti panel and a small scatter of artifacts. The site is located close to Anasazi Arch, and prehistoric/historic trails and stairways lead to the arch. This location was likely used throughout the prehistoric and historic periods.	Pueblo I (A.D. 700 to 900); Unspecified Navajo (A.D. 1500 to 1753); NM Statehood to WWII (A.D. 1912 to 1945)	Eligible
LA 98454	Corridor	State Line	BLM	LA 98454 is a small Navajo sherd scatter containing approximately 30 artifacts within a 2-by-3-m area.	Unspecified Navajo	Undetermined
LA 98455	Corridor	State Line	BLM	LA 98455 is a medium-sized, low-density Ancestral Pueblo artifact scatter (43 total items) containing the remains of a residential jacal structure.	Pueblo I (A.D. 700 to 900)	Eligible
LA 98458	Corridor	State Line	Private	LA 98458 is a multi-component site containing Ancestral Pueblo, Navajo, and historic 20 <sup>th</sup> Century artifacts. The remains of a hearth represent the only feature present on this site. Artifacts are concentrated around the hearth, and include 25 sherds and 10 historic artifacts.	Pueblo I (A.D. 700 to 900); Navajo pre-Pueblo Revolt to post-Pueblo Revolt (A.D. 1500 to 1753); Recent Historic (A.D. 1945 to 1960)	Undetermined
LA 98471	Corridor	State Line	Private	LA 98471 is a medium-sized Ancestral Pueblo site. It contains a small jacal roomblock with an associated midden, and a thermal feature. Over 1000 artifacts are present, most of which are located within the midden.	Pueblo I (A.D. 700 to 900)	Eligible

## Exhibit F-4

## Summary of Documented Archaeological Sites (New Mexico)

LA No.	Location	Segment	Land Status	Description	Temporal Affiliation	Preliminary Eligibility
LA 98472	Corridor	State Line	BLM/ Private	LA 98472 is a multi-component site with Ancestral Pueblo and Navajo manifestations. The prehistoric component is located near the base of a dramatic balancing rock and contains a single thermal feature with associated ceramic and lithic artifacts occurring in low density. The Navajo component contains the remnants of a sweat lodge, a small thermal feature, and Navajo ceramics numbering in the hundreds.	Pueblo II (A.D. 900 to 1100); Navajo pre-Pueblo Revolt to post-Pueblo Revolt (A.D. 1620 to 1753)	Eligible
LA 114121	Access Road	State Line	Private	LA 114121 is a large Ancestral Pueblo site containing several pithouses, rock/jacal structures, and associated middens. At least ten possible pithouse depressions are present, each with an associated midden. Artifacts are estimated to number in the tens of thousands.	Pueblo I (A.D. 700 to 900)	Eligible
LA 121992	Kiffin Substation	North Glade	BLM	LA 121992 is a small prehistoric artifact scatter on an alluvial fan in Farmington Glade. Although only 13 lithic and 2 ceramic artifacts were documented, previous investigators identified two thermal features with subsurface archaeological deposits.	Pueblo II-III (A.D. 900 to 1300)	Eligible
LA 121994	Access Road	North Glade	BLM	LA 121994 is a small prehistoric artifact scatter. Less than five of the previously identified artifacts could be relocated.	Unspecified Prehistoric (9500 B.C. to A.D. 1550)	Not Eligible
LA 126595	Access Road	Pinon Mesa	SLO	LA 126595 is a large lithic procurement and reduction site located on the northwest rim of Pinon Mesa. Lithic artifacts number in the thousands, and all stages of reduction are represented in the assemblage. Several prehistoric ceramics are also present.	Unspecified Prehistoric (9500 B.C. to A.D. 1550)	Eligible
LA 129101	Corridor	South Glade	SLO	LA 129101 is a medium-sized, low-density prehistoric artifact scatter containing two thermal features. The artifact assemblage includes 6 ceramics and 17 lithic items.	PII-PIII (A.D. 900 to 1300)	Eligible

**Exhibit F-4****Summary of Documented Archaeological Sites (New Mexico)**

<b>LA No.</b>	<b>Location</b>	<b>Segment</b>	<b>Land Status</b>	<b>Description</b>	<b>Temporal Affiliation</b>	<b>Preliminary Eligibility</b>
LA 129371	Corridor	State Line	BLM	LA 129371 is a small Ancestral Pueblo sherd and lithic scatter surrounding the remains of a hearth. The total observed artifact assemblage includes 12 ceramics and 6 lithic artifacts.	Pueblo II (A.D. 900 to 1100)	Eligible
LA 136338	Corridor	South Glade	BLM	LA 136338 is a small prehistoric ceramic and lithic scatter located on a knoll along the edge of the Farmington Glade. Only 38 artifacts were identified, although previous recorders located over 100 and recommended the site as eligible.	Pueblo III (A.D. 1100 to 1300)	Eligible
LA 154315	Access Road	Pinon Mesa	Private	LA 154315 is a large multi-component site containing unspecified prehistoric and Navajo manifestations. The prehistoric component is associated with lithic procurement and contains several hundred flaked-stone artifacts. Four prehistoric sherds are also located on the site. The Navajo component is represented by several Dineta Gray sherds and the possible remains of a sweat lodge.	Unspecified Prehistoric (9500 B.C. to A.D. 1550); Navajo pre-Pueblo Revolt to post-Pueblo Revolt (A.D. 1500 to 1753)	Eligible
LA 154316	Access Road	Pinon Mesa	Private	LA 154316 is a large lithic procurement and reduction site. Flaked-stone artifacts are estimated to number over 1,000, and 20 to 30 ceramics are also present. A single thermal feature is also present.	Unspecified Prehistoric (9500 B.C. to A.D. 1550)	Eligible
LA 166706	Corridor	North Glade	BLM	LA 166706 is a small Ancestral Pueblo artifact scatter that contains 17 ceramic and 4 lithic artifacts.	Pueblo I (A.D. 700 to 900)	Eligible
LA 174866	Corridor	Pinon Mesa	Private	LA 174866 is a small low-density sherd and lithic scatter. The total observed assemblage includes 2 sherds and 25 lithic artifacts.	Unspecified prehistoric (9500 B.C. to A.D. 1550)	Undetermined
LA 174867	Corridor	Pinon Mesa	Private	LA 174867 is a medium-sized lithic procurement and reduction site. The total assemblage is estimated to contain over 100 flaked-stone artifacts.	Unspecified prehistoric (9500 B.C. to A.D. 1550)	Eligible

## Exhibit F-4

## Summary of Documented Archaeological Sites (New Mexico)

LA No.	Location	Segment	Land Status	Description	Temporal Affiliation	Preliminary Eligibility
LA 174868	Corridor	Pinon Mesa	BLM	LA 174868 is a small low-density Ancestral Pueblo sherd and lithic scatter. The total observed assemblage includes 4 sherds and 20 lithic artifacts.	Pueblo II-III (A.D. 900 to 1300)	Undetermined
LA 174869	Corridor	Shiprock Substation Shiprock Substation	BLM	LA 174869 is a medium-sized, low-density lithic procurement site containing 15 flaked-stone artifacts. A pot drop containing 11 sherds is also present on the site but may not be associated.	Pueblo II (A.D. 900 to 1100)	Not Eligible
LA 174870	Corridor	Pinon Mesa	BLM	LA 174870 is a small, dense prehistoric flaked-stone scatter. Forty-one pieces of lithic debitage and three stone tools are located on the site within a 5 m diameter area.	Unspecified Prehistoric (9500 B.C. to A.D. 1550)	Eligible
LA 174871	Corridor	Pinon Mesa	BLM	LA 174871 is a medium-sized sherd and lithic scatter. The total observed assemblage includes approximately 25 sherds and 12 flaked-stone artifacts.	Pueblo II-III (A.D. 900 to 1300)	Undetermined
LA 174872	Kiffin Substation	Pinon Mesa	BLM	LA 174872 is a small lithic reduction site. The total observed assemblage includes 25 pieces of debitage and 6 flaked-stone tools.	Unspecified Prehistoric (9500 B.C. to A.D. 1550)	Undetermined
LA 174873	Corridor	Pinon Mesa	BLM	LA 174873 is a small Ancestral Pueblo sherd and lithic scatter. The total observed assemblage includes 23 pieces of lithic debitage, five lithic tools, and a pot drop.	Pueblo II-III (A.D. 900 to 1300)	Undetermined
LA 174874	Kiffin Substation	Pinon Mesa	SLO	LA 174874 is a large sherd and lithic scatter containing a single thermal feature and approximately 200-300 artifacts. Three ACs were identified, and lithic procurement was an important activity at the site.	Unspecified Prehistoric (9500 B.C. to A.D. 1550)	Eligible
LA 174875	Access Road	Pinon Mesa	Private	LA 174875 is a small multi-component site consisting of three historic hearths and a low-density scatter of unassociated prehistoric artifacts (10 total items). The hearths date to the 1900s and may be associated with Navajo sheep-herding activity.	Pueblo II-III (A.D. 900 to 1300); NM Statehood to Recent (1912 to 1960)	Not Eligible

**Exhibit F-4****Summary of Documented Archaeological Sites (New Mexico)**

<b>LA No.</b>	<b>Location</b>	<b>Segment</b>	<b>Land Status</b>	<b>Description</b>	<b>Temporal Affiliation</b>	<b>Preliminary Eligibility</b>
LA 174876	Corridor	Pinon Mesa	Private	LA 174876 is a small Archaic lithic scatter containing numerous bifaces of very high quality material. A total of 31 artifacts are present, including eight tools.	Unspecified Archaic (5500 B.C. to A.D. 400)	Undetermined
LA 174877	Corridor	Pinon Mesa	BLM	LA 174877 is a medium-sized Ancestral Pueblo sherd and lithic scatter. The total observed assemblage includes 14 sherds and 25 lithic artifacts.	Pueblo II-III (A.D. 900 to 1300)	Undetermined
LA 174878	Corridor	Shiprock Substation Shiprock Substation	Private	LA 174878 is a large Ancestral Pueblo site containing multiple rockshelter/roomblock features and a grinding station. The artifact assemblage is estimated to number in the hundreds. The site is likely associated with nearby LA 33361, a large community-scale contemporaneous pueblo site.	Pueblo II-III (A.D. 900 to 1300)	Eligible
LA 174879	Corridor	Pinon Mesa	Private	LA 174879 is a medium-sized lithic procurement site containing 40 lithic artifacts.	Unspecified Prehistoric (9500 B.C. to A.D. 1550)	Not Eligible
LA 174880	Access Road	Pinon Mesa	Private	LA 174880 is a large Ancestral Pueblo site located on the west side of the La Plata Highway. The site contains several features including the remains of two small one-room habitations and a possible pithouse depression. Over 1000 artifacts are present.	Pueblo II-III (A.D. 900 to 1300)	Eligible
LA 174881	Corridor	Pinon Mesa	SLO	LA 174881 is a medium-sized lithic procurement site containing over 100 flaked-stone artifacts.	Unspecified Prehistoric (9500 B.C. to A.D. 1550)	Eligible
LA 174882	Corridor	Pinon Mesa	SLO	LA 174882 is a medium-sized, low-density lithic procurement site. The total lithic assemblage is estimated to contain approximately 1000 artifacts.	Unspecified Prehistoric (9500 B.C. to A.D. 1550)	Eligible
LA 174883	Access Road	Pinon Mesa	Private	LA 174883 contains an historic 20 <sup>th</sup> century livestock feeding pen with approximately 50 associated historic artifacts.	NM Statehood to Recent Historic (A.D. 1912 to 1960)	Not Eligible

## Exhibit F-4

## Summary of Documented Archaeological Sites (New Mexico)

LA No.	Location	Segment	Land Status	Description	Temporal Affiliation	Preliminary Eligibility
LA 174884	Access Road	Pinon Mesa	Private	LA 174884 is a multicomponent site containing Ancestral Pueblo and historic 20th Century manifestations. The Ancestral Pueblo component includes a 6 to 10-room roomblock with an associated kiva and midden, and over 1000 artifacts. The historic component consists of an erosion/water control feature that likely dates to 1920–1950, with no associated artifacts.	Pueblo II-III (A.D. 900 to 1300); NM Statehood to Recent Historic (A.D. 1912 to 1960)	Eligible
LA 174885	Access Road	Pinon Mesa	SLO/ Private	LA 174885 consists of three erosion/water control features constructed from local cobbles. No associated historic artifacts are present and the site likely dates to 1920–1950.	NM Statehood to Recent Historic (A.D. 1912 to 1960)	Undetermined
LA 174886	Access Road	Pinon Mesa	SLO/ Private	LA 174886 consists of eight erosion/water control features constructed from local cobbles. No associated historic artifacts are present and the site likely dates to 1920–1950.	NM Statehood to Recent Historic (A.D. 1912 to 1960)	Undetermined
LA 174887	Access Road	Shiprock Substation	BLM	LA 174887 is a small low-density Ancestral Pueblo sherd and lithic scatter. The artifact assemblage contains 24 ceramics 22 lithic items.	Pueblo II (A.D. 900 to 1100)	Undetermined
LA 174888	Access Road	Shiprock Substation	BLM/ Private	LA 174888 is a large multi-component site containing Ancestral Pueblo and historic 20 <sup>th</sup> Century ranching manifestations. The prehistoric component contains a dense scatter of sherds and lithics numbering in the hundreds. The historic 20th Century ranching component contains a corral, a masonry L-shaped structural foundation, and associated artifacts.	Pueblo II (A.D. 900 to 1100); NM Statehood to Recent Historic (A.D. 1912 to 1960)	Eligible
LA 174889	Access Road	Pinon Mesa	Private	LA 174889 is a small sherd and lithic scatter containing one thermal feature. The total observed assemblage includes 6 sherds and 35 lithic artifacts.	Unspecified Prehistoric (9500 B.C. to A.D. 1550)	Undetermined
LA 174890	Access Road	Shiprock Substation	Private	LA 174890 is a small Ancestral Pueblo artifact scatter containing 25 ceramics.	Pueblo III (A.D. 1100 to 1300)	Undetermined

**Exhibit F-4****Summary of Documented Archaeological Sites (New Mexico)**

LA No.	Location	Segment	Land Status	Description	Temporal Affiliation	Preliminary Eligibility
LA 174891	Corridor	Shiprock Substation	Private	LA 174891 is a very small site containing a well-preserved thermal feature and a single sherd.	Unspecified Prehistoric (9500 B.C. to A.D. 1550)	Undetermined
LA 174892	Corridor	State Line	Private	LA 174892 is a Large Ancestral Pueblo site containing multiple features, including the remains of a jacal structure, an associated midden, and thermal features. Approximately 500 to 1,000 artifacts are present, most of which are in the midden.	Pueblo I (A.D. 700 to 900)	Eligible
LA 174893	Corridor	State Line	Private	LA 174893 is a small Ancestral Pueblo sherd and lithic scatter. The site contains 16 sherds and 9 lithic artifacts.	Pueblo I (A.D. 700 to 900)	Undetermined
LA 174894	Corridor	State Line	Private	LA 174894 is a small Ancestral Pueblo sherd and lithic scatter. The site contains 13 sherds and 7 lithic artifacts.	Pueblo I (A.D. 700 to 900)	Not eligible
LA 174895	Corridor	State Line	BLM	LA 174895 is a prehistoric site containing a poorly preserved jacal structure, a cache of cores/choppers, and less than 20 additional artifacts.	Unspecified Prehistoric (9500 BC to A.D. 1550)	Undetermined
LA 174896	Corridor	North Glade	Private	LA 174896 is a small Ancestral Pueblo site containing a thermal feature and approximately 50 lithic and ceramic artifacts.	Pueblo I (A.D. 700 to 900)	Eligible
LA 174897	Corridor	North Glade	SLO	LA 174897 is a very small site consisting of three thermal features and three lithic artifacts. The features cluster within a 3-m area along a two-track road.	Unspecified Native American (9500 B.C. to A.D. 1880)	Undetermined
LA 174898	Corridor	State Line	Private	LA 174898 is a large Ancestral Pueblo site containing three thermal features. The site is located adjacent to a well pad and is badly disturbed. It contains approximately 100 to 200 artifacts.	Pueblo I (A.D. 700 to 900)	Eligible
LA 174899	Corridor	State Line	BLM	LA 174899 consists of a small Ancestral Pueblo site consisting of a low-density artifact scatter surrounding a single thermal feature. Artifacts include three ceramics and three lithic items.	Pueblo I-II (A.D. 700 to 1100)	Undetermined

## Exhibit F-4

## Summary of Documented Archaeological Sites (New Mexico)

LA No.	Location	Segment	Land Status	Description	Temporal Affiliation	Preliminary Eligibility
LA 174900	Corridor	State Line	BLM	LA 174900 is a medium-sized site containing a thermal feature and an associated scatter of ceramic and flaked-stone artifacts (50 to 100 items). Both Ancestral Pueblo and Navajo sherds are present, suggesting two components.	Pueblo I (A.D. 700 to 900); Unspecified Navajo	Eligible
LA 174901	Corridor	State Line	BLM	LA 174901 is a large lithic scatter containing six thermal features/FCR concentrations and 56 lithic artifacts.	Unspecified Archaic (5500 B.C. to A.D. 400)	Eligible
LA 174902	Access Road	North Glade	SLO	LA 174902 is a multi-component site containing Ancestral Pueblo and historic 20th Century manifestations. The prehistoric component consists of seven artifacts. The historic 20th Century component includes a small cobble foundation with an associated historic artifact scatter.	Pueblo III (A.D. 1100 to 1300); Recent Historic (1945 to 1960)	Undetermined
LA 174903	Access Road	North Glade	Private	LA 174903 is a recent historic ranching complex with an associated trash dump. Several features are present, including two corrals, a loading chute, a stock tank complex with windmill and stock pond, and an automobile dump dating to the 1940s and 1950s. Approximately 50 historic artifacts are present at the site.	Recent Historic (1945 to 1960)	Not Eligible
LA 174904	Corridor	State Line	BLM	LA 174904 is a multi-component site containing unspecified prehistoric and Navajo manifestations. The site contains a distinctive historic Navajo brush corral. The prehistoric assemblage includes five lithic artifacts.	Unspecified Prehistoric (9500 B.C. to A.D. 1550); NM Statehood to WWII (A.D. 1912 to 1945)	Undetermined
LA 174905	Corridor	State Line	BLM	LA 174905 is a medium-sized site containing a lithic scatter and two thermal features. The total observed assemblage includes 17 lithic artifacts.	Unspecified Prehistoric (9500 B.C. to A.D. 1550)	Eligible
LA 174906	Corridor	State Line	BLM	LA 174906 is a small dense Navajo artifact scatter with an associated thermal feature. Artifacts are concentrated around the feature and include 74 sherds and 6 lithic artifacts.	Navajo pre-Pueblo Revolt to post-Pueblo Revolt (A.D. 1500 to 1753)	Eligible

## Exhibit F-4

## Summary of Documented Archaeological Sites (New Mexico)

LA No.	Location	Segment	Land Status	Description	Temporal Affiliation	Preliminary Eligibility
LA 174907	Corridor	State Line	BLM	LA 174907 is a small Navajo artifact scatter with two associated thermal features. The total observed assemblage includes 13 sherds and 6 lithic artifacts.	Navajo pre-Pueblo Revolt to post-Pueblo Revolt (A.D. 1500 to 1753)	Eligible
LA 174908	Corridor	State Line	BLM	LA 174908 is a medium-sized Ancestral Pueblo site containing possible pithouse depressions and a dense artifact scatter. Approximately 200 to 500 artifacts are present.	Basketmaker III to Pueblo I (A.D. 500 to 900)	Eligible
LA 174909	Corridor	State Line	BLM	LA 174909 is a small Ancestral Pueblo sherd and lithic scatter containing 28 ceramics and 3 flaked-stone artifacts.	Pueblo I (A.D. 700 to 900)	Undetermined
LA 174910	Corridor	State Line	BLM	LA 174910 is a multi-component site containing unspecified prehistoric, Navajo, and historic 20th Century ranching manifestations. The unspecified prehistoric component consists of two ground-stone fragments and a biface at the base of a large cliff. The Navajo component is located on top of the promontory and contains three Dinetah Gray sherds and two lithic tools. The historic 20th Century ranching component contains a corral complex, a livestock trail, and several graffiti panels.	Unspecified Prehistoric (9500 B.C. to A.D. 1550); Navajo pre-Pueblo Revolt to post-Pueblo Revolt (A.D. 1500 to 1753); NM Statehood-WWII (A.D. 1912 to 1945)	Undetermined
LA 174911	Corridor	State Line	BLM	LA 174911 is a multi-component site. This Ancestral Pueblo component contains several features, including a pithouse depression with an associated midden, and a small rectangular cobble feature. The prehistoric assemblage is estimated to number in the thousands. The site also contains an historic 20th Century component consisting of a small scatter of historic artifacts.	Pueblo I (A.D. 700 to 900); NM Statehood to WWII (A.D. 1912 to 1945)	Eligible
LA 174918	Corridor	South Glade	BLM	LA 174918 is a multi-component site consisting of Ancestral Pueblo and historic 20th Century manifestations. The prehistoric component contains 2 thermal features and 12 artifacts. A single-episode 1950s trash dump is also located on the site.	Pueblo II-III (A.D. 900 to 1300); Recent historic (1960 to present)	Eligible

## Exhibit F-4

## Summary of Documented Archaeological Sites (New Mexico)

LA No.	Location	Segment	Land Status	Description	Temporal Affiliation	Preliminary Eligibility
LA 174919	Corridor	South Glade	BLM	LA 174919 is a small prehistoric ceramic and lithic artifact scatter. The artifact assemblage includes 31 ceramic 13 lithic artifacts.	Pueblo III (A.D. 1100 to 1300)	Undetermined
LA 174920	Corridor	South Glade	BLM	LA 174920 is an Ancestral Pueblo habitation site that contains a single residential structure and an associated artifact assemblage that contains over 100 items (mostly ceramics).	Pueblo II (A.D. 900 to 1100)	Eligible
LA 174921	Corridor	South Glade	BLM	LA 174921 is a small prehistoric artifact scatter containing 46 ceramics and 15 flaked-stone artifacts.	Pueblo III (A.D. 1100 to 1300)	Undetermined
LA 174922	Corridor	North Glade	BLM	LA 174922 is an historic site containing two features and a scatter of associated historic artifacts artifact. It likely represents a small camp.	Recent historic (1960 to present)	Not Eligible
LA 174923	Corridor	North Glade	BLM	LA 174923 is a small multi-component site consisting of Ancestral Pueblo and historic 20th Century manifestations. No features are present, and the site contains approximately 20 prehistoric/historic artifacts.	Pueblo II (A.D. 900 to 1100); N.M. Statehood-WWII (A.D. 1912 to 1945)	Undetermined
LA 174924	Corridor	North Glade	BLM	LA 174924 is a small multi-component site containing Ancestral Pueblo and historic 20 <sup>th</sup> Century manifestations. The prehistoric component contains 16 lithic artifacts, while the historic component consists of 6 artifacts.	Unspecified prehistoric (5500 B.C. to A.D. 1550); N.M. Statehood to WWII (A.D. 1912 to 1945)	Undetermined
LA 174925	Corridor	North Glade	BLM	LA 174925 is a medium-sized multi-component site consisting of Ancestral Puebloan and historic 20th century manifestations. The prehistoric component includes 12 lithic and 5 ceramic artifacts, while the historic assemblage includes over 50 items.	Pueblo III (A.D. 1100 to 1300); U.S. Territorial to N.M. Statehood (A.D. 1848 to 1912)	Undetermined
LA 174926	Corridor	North Glade	BLM	LA 174926 is a small historic artifact scatter containing 41 artifacts and dating to the 1950s. No evidence of residential use is present.	N.M. Statehood to WWII (A.D. 1912 to 1945)	Not Eligible

**Exhibit F-4****Summary of Documented Archaeological Sites (New Mexico)**

<b>LA No.</b>	<b>Location</b>	<b>Segment</b>	<b>Land Status</b>	<b>Description</b>	<b>Temporal Affiliation</b>	<b>Preliminary Eligibility</b>
LA 174927	Corridor	North Glade	BLM	LA 174927 is a low-density prehistoric artifact scatter consisting of 17 lithic artifacts. The site contains 2 thermal features with intact cultural deposits.	Unspecified Prehistoric (5500 B.C. to A.D. 1550)	Eligible
LA 174928	Corridor	North Glade	BLM/SLO	LA 174928 is a small prehistoric artifact scatter containing 12 lithic and two ceramic items.	Pueblo II-III (A.D. 900 to 1300)	Undetermined
LA 174929	Corridor	North Glade	BLM	LA 174929 is a medium-sized Ancestral Pueblo sherd and lithic scatter. The site lacks features but contains 46 ceramic and 15 lithic items.	Pueblo I-II (A.D. 700 to 1100)	Eligible
LA 174930	Corridor	South Glade	BLM/SLO	LA 174930 is a medium-sized prehistoric artifact scatter containing approximately 50 lithic and ceramic items. No features are present, but the site contains artifact concentrations, numerous tools, and deep sediments.	Late Archaic to Basketmaker II (1000 B.C. to A.D. 400); Pueblo II (A.D. 900 to 1100)	Eligible
LA 174931	Corridor	South Glade	BLM/SLO	LA 174931 is a large historic artifact scatter that extends along the base of a ridge. Although it contains over 200 items, it appears to be a single-episode dump dating to the 1960s.	Recent Historic (1960 to present)	Not Eligible
LA 174932	Corridor	South Glade	BLM	LA 174932 is a small prehistoric artifact scatter consisting of 12 lithic and 8 ceramic artifacts, including several tools.	Pueblo II-III (A.D. 900 to 1300)	Undetermined
LA 174933	Corridor	South Glade	BLM/ Private	LA 174933 is a large Ancestral Pueblo habitation site. It includes numerous residential structures and eight ACs. Over 500 artifacts are present. The site occupies a series of benches and alluvial fans that extend to the La Plata floodplain.	Pueblo II-III (A.D. 900 to 1300)	Eligible
LA 174934	Access Road	South Glade	BLM	LA 174934 is a large, dispersed multi-component site with Ancestral Pueblo and historic 20 <sup>th</sup> Century manifestations. The prehistoric assemblage includes 30 lithic and 7 ceramic artifacts. The historic component contains approximately 100 artifacts.	Pueblo II-III (A.D. 900 to 1300); WWII to Recent historic (A.D. 1945 to 1960)	Undetermined

## Exhibit F-4

## Summary of Documented Archaeological Sites (New Mexico)

LA No.	Location	Segment	Land Status	Description	Temporal Affiliation	Preliminary Eligibility
LA 174935	Corridor	South Glade	BLM/SLO	LA 174935 is a medium-sized, low-density prehistoric artifact scatter containing 44 lithics and 1 ceramic artifact. The single sherd may not be associated.	Unspecified Prehistoric (9500 B.C. to A.D. 1550)	Eligible
LA 174936	Corridor	South Glade	BLM/SLO	LA 174936 is a medium-sized multi-component site containing Ancestral Pueblo and historic 20th Century manifestations. Each component contains approximately 100 artifacts.	Pueblo II (A.D. 900 to 1100); WWII to Recent historic (A.D. 1945 to 1960)	Eligible
LA 174937	Access Road	South Glade	BLM	LA 174937 is a small, dispersed Ancestral Pueblo artifact scatter containing 10 total items (lithics and ceramics).	Pueblo II-III (A.D. 900 to 1300)	Not Eligible
LA 174938	Corridor	South Glade	BLM	LA 174938 is a small prehistoric lithic procurement site containing 10 flakes and 2 cores. No tools are present, and the location is rocky.	Unspecified prehistoric (5500 B.C. to A.D. 1550)	Not Eligible
LA 174939	Access Road	South Glade	BLM/SLO	LA 174939 is a small Ancestral Pueblo artifact scatter containing seven ceramic and nine flaked-stone items.	Pueblo II (A.D. 900 to 1100)	Undetermined
LA 174940	Corridor	South Glade	BLM	LA 174940 is a medium-sized prehistoric artifact scatter containing a large thermal feature, and 68 artifacts. Archaic and Ancestral Pueblo components are present based on diagnostic artifacts present.	Middle to Late Archaic (3500 to 200 B.C.); Pueblo II-III (A.D. 900 to 1300)	Eligible
LA 174941	Corridor	South Glade	BLM	LA 174941 is a small Ancestral Pueblo artifact scatter containing 13 ceramics and 21 flaked-stone items. No features are present.	Pueblo II (A.D. 900 to 1100)	Undetermined
LA 174942	Access Road	South Glade	BLM	LA 174942 is a medium-sized Ancestral Pueblo artifact scatter containing a single thermal feature and more than 100 ceramic and flaked-stone artifacts.	Pueblo II (A.D. 900 to 1100)	Eligible
LA 174943	Corridor	South Glade	BLM/SLO	LA 174943 is a medium-sized Ancestral Pueblo artifact scatter. The artifact assemblage includes 27 ceramic and 19 lithic artifacts. No features are present.	Pueblo II (A.D. 900 to 1100)	Undetermined

<b>LA No.</b>	<b>Location</b>	<b>Segment</b>	<b>Land Status</b>	<b>Description</b>	<b>Temporal Affiliation</b>	<b>Preliminary Eligibility</b>
LA 174944	Corridor	South Glade	BLM	LA 174944 is a small prehistoric artifact scatter containing 1 ground-stone tool and 10 pieces of debitage.	Unspecified prehistoric (5500 B.C. to A.D. 1550)	Not Eligible
LA 174945	Access Road	South Glade	BLM	LA 174945 is a small prehistoric lithic procurement site containing 20 lithic artifacts. The site lacks potential for subsurface deposits.	Unspecified prehistoric (5500 B.C. to A.D. 1550)	Not Eligible
LA 174946	Corridor	South Glade	BLM	LA 174946 is a small, dense multi-component artifact scatter containing 35 lithic and 32 ceramic fragments. Both Ancestral Pueblo and Navajo ceramics are present. Artifacts are eroding out of the road cut, and subsurface deposits are likely.	Pueblo II-III (A.D. 900 to 1300); Navajo pre-Pueblo Revolt (A.D. 1400 to 1680)	Eligible
LA 174947	Corridor	South Glade	BLM	LA 174947 is a small Archaic site containing 2 thermal features and 12 associated lithic artifacts.	Late Archaic (1000 B.C. to A.D. 400)	Eligible
LA 174948	Corridor	South Glade	BLM	LA 174948 is a small prehistoric artifact scatter containing 13 lithics and 1 ceramic fragment. No features are present, and the site is extremely rocky and eroded.	Pueblo II-III (A.D. 900 to 1300)	Not Eligible
LA 174949	Corridor	South Glade	BLM	LA 174949 is a small prehistoric artifact scatter containing 3 ceramics and 12 flaked-stone items. No features are present, and the site location is extremely rocky and eroded.	Pueblo II-III (A.D. 900-1300)	Not Eligible
LA 174950	Corridor	South Glade	BLM	LA 174950 is a medium-sized Ancestral Pueblo site containing two features and a moderate-density artifact scatter. The assemblage consists of 48 ceramic and 36 lithic artifacts.	Pueblo II-III (A.D. 900 to 1300)	Eligible
LA 174951	Corridor	South Glade	BLM	LA 174951 is a small prehistoric lithic procurement site containing 26 lithic artifacts.	Unspecified prehistoric (5500 B.C. to A.D. 1550)	Undetermined
LA 174952	Corridor	South Glade	BLM	LA 174952 is a medium-sized Ancestral Pueblo artifact scatter of consisting of 67 ceramics and 38 lithic items.	Pueblo II-III (A.D. 900 to 1300)	Eligible
